

EVERYONE IS AT RISK

Your pain pills may be opioids, a class of drugs that includes prescriptions like oxycodone (OxyContin[®], Percocet[®]) and hydrocodone (Vicodin[®]). Taking opioids longer than **5 days increases your risk of addiction.**

Visit [ADoseofTruthIL.com](https://www.ADoseofTruthIL.com) to learn more.

Fully funded by the Substance Abuse and Mental Health Services Administration through the Opioid State Targeted Response grant administered by the Illinois Department of Human Services Division of Substance Use Prevention and Recovery (TI-080231).
