***When you're live streaming
real life, you don't need
marijuana. Being you
and being weed-free is
what's cool.***

-  *Your friends like you for you, not for who you become under the influence of marijuana. That's a true friendship.*
-  *Marijuana can interfere with school and social life, making it harder to maintain relationships.*

"I'm a success today because I had a friend who believed in me, and I didn't have the heart to let him down." *-Abraham Lincoln*

Give your brain a chance to be its best; you deserve it. Marijuana use can harm your brain as its constantly changing and growing.

-  *When flooded with marijuana, your brain can have difficulty with problem-solving and thinking, actually losing IQ points that you can't get back (even if you quit)!*
-  *Your amazing three-pound brain is in charge of all the body systems. Let it do its job by keeping it healthy and weed-free.*
